Mr. Mike Wannemacher  
Proposal Specialist  
EZGSA - Gateway to Government Sales  
PO Box 30406  
Bethesda, MD 20824

Dear Mike,

Advanced Data Technologies, Inc. is very pleased with the timely award of a GSA IT contract to the company and the wonderful services provided by you throughout the entire process of acquiring the GSA contract. Through closely working together, you have helped us greatly in gathering and retrieving important company information for the GSA application. You skillfully compiled the received materials and presented them in the best way for the GSA application. It was through your insistence that we finally got the primary contractor's end-user invoice from the government, that resulted in ADTI being awarded with the labor rates that are compatible with the primary contractor's ones – something I didn't originally expect or think possible (Thank you for that – Mike!).

Advanced Data Technologies, Inc. would like to express its sincere thanks to you and EZGSA for your professionalism, skills, and warmth towards your clients. We would like to in particular thank you for utilizing your professional knowledge and government contract negotiation skills to maximize the gain for your client. It has been a great pleasure working with you and EZGSA! Wish you all the best and future successes of your business. You have surely delivered and exceeded in your promises in helping small businesses to get into the government contacting market!

Yours very sincerely,
