Dear Evie,

Please accept our very sincere thanks to Mr. Jack Eisenstein and your entire organization for the completion of the GSA requirements. We are under no illusions now regarding the difficulty of the process that requires knowledge coupled with patience. Jack communicated with us throughout the process so that we understood the procedure and the pace of approval. He was professional and has a masterful grasp of the requirements necessary to complete the process. Jack was friendly and offered excellent advice. You have our utmost gratitude as we could not have accomplished this task without Jack and your organization.
