To Whom It May Concern:

The purpose of this letter is to attest to the high professional standards and outstanding support rendered to HBM Associates by EZGSA over the past two years. EZGSA was crucial in assisting our company in securing a GSA contract. This effort was complicated by the extreme security classification of the work being performed by HBM Associates and the fact that we had only been in business for a relatively short time. These two factors led to GSA rejecting our proposal on two occasions.

EZGSA assigned their top specialist, Ms. Judith Nelson, to our case. She formulated a "plan-of-action," held numerous meetings with GSA, and assisted HBM in reaccomplishing our proposal to meet GSA requirements. Everyone at EZGSA (Scott Orbach, Eric Kerkhoff, Evie Altman, and Charles Nelson) got deeply involved in assisting us come to closure with GSA. These actions went above-and-beyond EZGSA's contractual responsibilities and demonstrated their commitment to total customer service.

We have come to value our relationship with EZGSA and give our unequivocal recommendation to anyone wishing to use its services. EZGSA epitomizes professionalism, tenacity, and total comprehension of the GSA contractual processes. We look forward to a long, continuing relationship with this wonderful company.

Sincerely,

A handwritten signature in black ink that reads "Sanford D. Mangold".

SANFORD D. MANGOLD
