Dear Scott:

Just a quick note to let you know how much I appreciate the highly efficient contract management services EZGSA provides.

Our GSA Contracting Officer has made it known on many occasions just how much he enjoys working with EZGSA. He knows that when he gets a GSA modification request prepared by EZGSA, he is getting everything he needs to quickly turn the modification around and approve it.

Christie Zepeda, in particular has done an absolutely wonderful job on our GSA contract. I am personally satisfied in which the manner she has conducted herself when having questions on my schedule. Christie is definitely an asset to EZGSA and I am looking forward to continuing our relationship.

I will continue to recommend your proposal and contract management services to my peers.

Thank you,

Terry Ballard
President
Premier Business Products/Federal Office Supply
