EZGSA

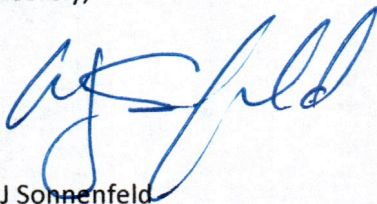

To Whom It May Concern:

PVI's experience with EZGSA has opened a new door to additional revenue while helping us understand the complexities of the US Government buying process. With the help of our specialist, Magdalena Ilieva, we were able to go from knowing very little about the GSA/FSS system, to now feeling confident in our own abilities to move forward.

While we did not fit the "normal" picture of an agency trying to sell to the government, Magdalena was able to design a modification to our contract that allowed us to keep extra margin in our products while still providing a winning formula.

The entire process started with the EZGSA conference in Kansas City and ended with an approved modification. Overall, we are satisfied with the services provided and know that the additional revenue it will provide was worth every penny.

Sincerely,

MJ Sonnenfeld

VP of Sales

Prairie View Industries
